# HEMANT MANJUNATH KADLER

*Software Developer* | *Full-Stack & Healthcare ERP*

Mysore, Karnataka | hemantkadler@gmail.com | +91 9449447654 | github.com/hemantkadler1 | linkedin.com/in/hemantmanjunathkadler

## PROFESSIONAL SUMMARY

Software Developer with professional experience building full-stack web and mobile applications using Java, Spring Boot, React.js, Next.js, REST APIs, and MySQL. Experienced in developing healthcare ERP platforms (HealthMatrix360, IVFCareX, DentoCareX), designing and delivering microservices, integrating 15+ REST APIs, and supporting containerized CI/CD deployments with Docker and Jenkins across the full software development lifecycle.

## TECHNICAL SKILLS

**Languages:** Java, JavaScript

**Frontend:** React.js, Next.js, HTML, CSS

**Backend & Database:** Spring Boot, REST APIs, Microservices Architecture, MySQL

**Mobile:** Android Development, iOS Development

**DevOps & Deployment:** Docker, Docker Desktop, Jenkins, CI/CD

**Focus Areas:** Full-Stack Development, ERP Applications, Healthcare Software, Mobile Application Development, Application Deployment

## PROFESSIONAL EXPERIENCE

### Associate Software Engineer — Skyllx Technologies Private Limited

**Jan 2026 – Present**

*Full-Time (promoted from Internship)* | *Products: HealthMatrix360, IVFCareX, DentoCareX*

- Developed features for HealthMatrix360 (hospital management system), IVFCareX (IVF management system), and DentoCareX (dental clinic management system) — real-world healthcare ERP platforms.
- Built and enhanced web application features using React.js and Next.js, delivering role-based healthcare workflows and application UI.
- Developed and integrated 15+ REST APIs using Java and Spring Boot, connecting frontend applications with backend services for healthcare workflows.
- Designed and implemented backend microservices architecture, delivering 6+ modular, scalable services for healthcare ERP applications.
- Developed and maintained MySQL-backed application features, including database debugging, query handling, and data integration.
- Developed Android and iOS mobile applications for HealthMatrix360, building role-specific interfaces for patients, doctors, nurses, and receptionists, and integrating them with backend services and APIs.
- Supported Android and iOS build, release, and deployment workflows using Docker Desktop and Jenkins-based CI/CD pipelines.
- Owned end-to-end delivery across 3 healthcare ERP products (HealthMatrix360, IVFCareX, DentoCareX), supporting 4 distinct user roles — patients, doctors, nurses, and receptionists.

***Key Skills:*** *Android, iOS, Multi-Role Mobile Applications, Healthcare Applications, API Integration, Mobile Deployment*

## EDUCATION

### B.E., Computer Science Engineering — Vidyavardhaka College of Engineering, Mysore

**CGPA: 8.58**

## CERTIFICATIONS

- SAP Consultancy Technology — Coursera
- Data Analysis — Google Cloud

## HACKATHONS & ACHIEVEMENTS

- **INDIA MED EXPO 2026 — Exhibitor, Skyllx Technologies:** Presented and demonstrated HealthMatrix360, DentoCareX, and MedSpaceX to healthcare professionals and visitors.
- **GIRL GEEK Hackathon (Dec 2024):** Developed an SSL certificate analyser using Python to inspect and validate SSL certificates for potential vulnerabilities.
- **INFOTHON 4.0 (Feb 2025):** Developed an Ocean AI pollution detection project to identify pollution content in ocean water.
